SUBJECT INDEX OF VOLUME 151

abortion pathogenesis in non-pregnant ewe 141-55
acid-base
  balance effects of sodium bicarbonate loading in racehorses 523-45
  parameters in rams, xylazine epidural anaesthesia 579-86
Aeromonas salmonicida vaccination in salmonid aquaculture 45-69
African swine fever outbreak in Spain 203-14
airways, response to endotoxin 489-522
aldosterone haemostasis in sheep without functional colons 695-706
amniotic fluid see *under* bovine
anaesthesia see epidural
antibodies to endotoxin 489-522
aqueous humour levels of 3-OH butyrate in pregnant sheep at post mortem 459-61
arthritides, infectious agents and 229-32 (editorial)
artificial insemination in rabbits 477-88

bacterial/permeability-increasing protein response to endotoxin 489-522
beta-adrenoceptor subtypes identification in bovine ovarian and myometrial cell membranes 567-78
blood
  flow response to endotoxin 489-522
  gas, effects of xylazine epidural anaesthesia in rams 579-86
Book Reviews
  Anaesthesia of the cat 722
  Aquaculture for veterinarians: fish husbandry and medicine 464
  Canine and feline cardiac arrhythmias—self-assessment 26
  Cardiovascular pharmacology 593
  Cattle behaviour 324
  Clinical textbook for veterinary technicians 188
  Clinical veterinary microbiology 330
  Colour atlas of veterinary dentistry and oral surgery 722
  Consultations in feline internal medicine 220
  Energy and protein requirements of ruminants 464-5
  Equine medical disorders 595-6
  Equine reproductive physiology, breeding and stud management 70
  Fertility and infertility in dogs, cats and other carnivores 337-8
  Handbook of feline medicine 38
  Hospital administration for veterinary staff 591
  Human—animal bond and grief 591-2
  Pathogenesis of bacterial infections in animals 463
  Physiology of reproduction 114
  Practical guide to diagnostic imaging: radiographs and ultrasonography 464-5
  Practical lambing and lamb care 721
  Proceedings of the first international camel conference 228
  Quantitative aspects of ruminant digestion and metabolism 4
  Questions and answers for veterinary technicians 463-4
  Small animal orthopaedics 596
  Stress and animal welfare 280
  Student's guide to equine clinics Vol 1 592-3
  Veterinary annual 34 594-5
  Veterinary drug residues 156
  Veterinary drug therapy 593-4
  Zoo and wild animal medicine—current therapy 3 16
Border disease in pigs and sheep 181-7
Borrelia burgdorferi viability in stored semen 221-4 (SC)
bovine amniotic fluid effect on bovine oocyte maturation 547-54
bovine follicular fluid effect on bovine oocyte maturation 547-54
bovine see *also* cattle
bulk tank milk somatic cell count 17-25
buserelin
  effect on oestradiol and progesterone levels in cow 427-32
  induction of ovulation in rabbits 477-88

caecal liquor, penicillin G disposition measurement 401-12
camel, skin cell line Dubca 555-65
cardiac function response to endotoxin 489-522
cat
  fibrosarcoma, tumour suppression gene p53 mutations in 707-14
  hair mercury 215-19
  mammary carcinoma, tumour suppressor p53 gene exon sequence 325
cattle
  Borrelia burgdorferi viability in stored semen 221-4 (SC)
  bovine abortion in dairy herd from *Chlamydia psittaci* 683-94
  bovine amniotic fluid effect on bovine oocyte maturation 547-54
  buserelin effect on oestradiol and progesterone levels in cow 427-32
  claw characteristics 157-80
  lameness from claw lesions in dairy cow 343-6 (editorial), 391-9
  ovarian and myometrial cell membranes, beta-adrenoceptor subtypes 567-78
  pestivirus 263-70
  tilmicosin efficacy in respiratory disease in housed beef calves 587-9 (SC)
  see *also* ruminants
cell damage from *Salmonella* toxins 351-77
cerebrospinal fluid
  analysis in neurological disease in large animals 599 (editorial), 603-14
  glucose levels of pregnancy toxaemia cases in ewes 39-44
  levels of 3-OH butyrate in pregnant sheep at post mortem 459-61
Cervus elaphus see deer, red
chicks, intestinal tract and liver pathology following exposure to *Salmonella* serotypes 311-23
Chlamydia psittaci
  isolation following bovine abortion in dairy herd 683-94
  pathogenesis 115-18 (editorial), 141-55
claw
  lesions in dairy cow 343-6 (editorial), 391-9

characteristics in cattle 157-80
colon, non-functional, fluid haemostasis in sheep 695-706
cyclo-oxygenase products in endotoxaemia 489-522
cytogenetics of fibroma and haemangiopericytoma in dogs 433-41
cytokine response to endotoxin 489-522

deer, red, radionuclide uptake on mountain grazing 671-82
dehydration effects on poultry 197-202
distemper virus, heat shock proteins and 271-9
DNA technology and horse parentage testing 1-3 (editorial), 9-15
dog
Borrelia burgdorferi viability in stored semen 221-4 (SC)
fibroma and haemangiopericytoma 433-41
muscle damage quantification after drug administration 189-96
hair mercury 215-29
heat shock proteins in RA and SLE 271-9
laryngeal paralysis 71-82
donkey, penicillin G disposition 401-12
drug administration causing muscle damage in dogs 189-96
Dubca cells 555-64

eicosanoid response to endotoxin 489-522
electrolyte
effects of sodium bicarbonate loading in racehorses 523-45
haemostasis in sheep without functional colons 695-706
endotoxaemia 469-71
endotoxin, mediators and vascular effects 489-522
epidural anaesthesia effect on blood gas and acid-base parameters in rams 579-86
equid herpesvirus type I whole virus vaccine 27-37
erythrocyte lactate in horses during and after exercise 299-310
exercise in horses, lactate distribution in plasma and erythrocytes 299-310

fasting effects on poultry 197-202
fatty acid salts injection causing muscle damage in dogs 189-96
fibroma in dogs 433-41
fibrosarcoma, feline, tumour suppression gene p53 mutations 707-14
fish, *Mycoplasma mobile* 163K attachment to gills 89-100
fluid
effects of sodium bicarbonate loading in racehorses 523-45
haemostasis in sheep without functional colons 695-706
food deprivation, response of poultry 197-202
foot-and-mouth disease vaccines 379-89
furunculosis vaccination in salmonid aquaculture 45-69

gene probes for parasite resistance in sheep 119-40
gentamicin pharmacokinetics in goats 453-8
gills, *Mycoplasma mobile* 163K attachment 89-100
glucose
effects on response to sodium bicarbonate administration to racehorses 523-45
levels in CSF and plasma of pregnancy toxaemia cases in ewes 39-44
goat
gentamicin pharmacokinetics 453-8
testicular degeneration US imaging 101-10
grass tetany, impaired magnesium absorption 413-26

haemangiopericytoma in dogs 433-41
haemodynamic response to endotoxin 489-522
Haemonchus contortus resistance in sheep 119-40
hair mercury in cats and dogs 215-19
heat shock proteins in dogs with RA and SLE 271-9
horn growth characteristics in cattle 157-80
horse
fatalities, perioperative 347-50 (editorial)
lactate distribution in plasma and erythrocytes during and after exercise 299-310
parentage testing and DNA technology 1-3 (editorial), 9-15
penicillin G disposition 401-12
pleuropneumonia 233-62
pony response to adjuvant EHV-1 whole virus vaccine 27-37
Trypanosoma equiperdum antibody detection 715-20 (SC)
see also racehorse
hygiene in milk production 5-8 (editorial), 17-25
hypomagnesaemia aetiology 413-26

imidocarb injection causing muscle damage in dogs 189-96
immunogenetics of parasite resistance in sheep 119-40
infectious agents and joint diseases 229-32 (editorial)
interleukin-1 response to endotoxin 489-522
intestinal tract pathology in chicks following exposure to *Salmonella* serotypes 311-23
ischaemia-reperfusion injury in small animals 281-98

joint diseases, infectious agents and 229-32 (editorial)

lactate distribution in plasma and erythrocytes during and after exercise in horses 299-310
lameness from claw lesions in dairy cows 343-6 (editorial), 391-9
laminitis, subclinical, in dairy cow 343-6, 391-9
laryngeal paralysis in dogs 71-82
lidocaine injection causing muscle damage in dogs 189-96
lipid A, endotoxin binding 489-522
lipoxygenase products in endotoxaemia 489-522
liver pathology in chicks following exposure to *Salmonella* serotypes 311-23
Lyme borreliosis in stored semen 221-4 (SC)

magnesium absorption in grass tetany 413-26
mammary carcinoma, feline, tumour suppressor p53 gene exon sequence 325
mastitis control 5-8 (editorial), 17-25
maternal immunity, foot-and-mouth disease and 379-89
membrane receptors, endotoxin binding 489-522
mercury levels in cat and dog hair 215-19
microvascular permeability response to endotoxin 489-522

milk hygiene 5-8 (editorial), 17-25
mucosal disease in cattle 263-70
muscle damage quantification in dogs after drug administration 189-96
Mycoplasma
-associated ovine keratoconjunctivitis, oxytetracycline for 83-8
M.mobile 163K attachment to gills 89-100
myometrial cell membranes, bovine, beta-adrenoceptors subtypes 567-78

neurological disease diagnosis by CSF analysis in large animals 599 (editorial), 603-14
nitric oxide effects during endotoxaemia 489-522

oestradiol levels in cow, effect of buserelin 427-32
oestrus cow serum effect on bovine oocyte maturation 547-54
3-OH butyrate levels in aqueous humour and cerebrospinal fluid in pregnant sheep at post mortem 459-61
oocyte maturation in cattle, bovine amniotic fluid effect 547-54
ovarian cell membranes, bovine, beta-adrenoceptors subtypes 567-78
ovulation induction in rabbits 477-88
oxygen toxicity 225-7 (editorial)
oxyradical research 225-7 (editorial)
oxyradicals in small animal reperfusion injury 281-98
oxytetracycline dihydrate for *Mycoplasma*-associated ovine keratoconjunctivitis 83-8

paramesonephric ducts in sheep, congenital abnormalities in 443-52
parasite resistance in sheep 119-40
penicillin G disposition in equidae 401-12
pestivirus infections
in cattle 263-70
in pigs and sheep 181-7
in ruminants 597-8 (editorial),615-42
pig
African swine fever outbreak in Spain 203-14
Border disease 181-7
response to endotoxin 489-522
stomach weights in abattoir 659-70
plasma glucose levels of pregnancy toxaemia cases in ewes 39-44
plasma lactate in horses during and after exercise 299-310
plasma proteins, endotoxin binding 489-522
platelet-activating factor response to endotoxin 489-522
pleuropneumonia, equine 233-62
polymyxin B response to endotoxin 489-522
pony, penicillin G disposition 401-12
poultry
response to food and water deprivation 197-202
testosterone effect on sulphadimidine and sulphachloropyrazine pharmacology in roosters 331-6 (SC)
pregnancy
diagnosis in rabbits 477-88
toxaemia cases, CSF and plasma glucose levels in ewes 39-44
progesterone
assay for pregnancy in rabbits 477-88
levels in cow, effect of buserelin 427-32
rabbit, artificial insemination 477-88
racehorse, sodium bicarbonate loading 473-5, 523-45
radiocaesium uptake on mountain grazing by red deer 671-82
redmouth disease vaccination in salmonid aquaculture 45-69
reproductive loss in cattle from pestivirus 263-70
reproductive tracts in sheep, congenital abnormalities 443-52
respiratory disease in housed beef calves, efficacy of tilmicosin 587-9(SC)
rheumatoid arthritis in dogs, heat shock proteins and 271-9
ruminants
cerebrospinal fluid analysis in neurological disease 599 (editorial), 603-14
impaired magnesium absorption in grass tetany 413-26
pestivirus infections 597-8 (editorial), 615-42
see also cattle; sheep

Salmonella
fimbriae used in diagnosis 643-58
kedougou exposure in chicks, intestinal tract and liver pathology 311-23
serotypes exposure in chicks, intestinal tract and liver pathology 311-23
typhimurium exposure in chicks, intestinal tract and liver pathology 311-23
salmonellosis 351-77
salmonid aquaculture, vaccination practice 45-69
semen, *Borrelia burgdorferi* viability 221-4 (SC)
sheep
abortion pathogenesis in non-pregnant ewe 141-55
Border disease 181-7
Borrelia burgdorferi viability in stored semen 221-4 (SC)
Chlamydia psittaci pathogenesis 115-18 (editorial)
congenital abnormalities in paramesonephric ducts 443-52
CSF and plasma glucose levels of pregnancy toxaemia cases 39-44
fluid haemostasis in sheep without functional colons 695-706
immunogenetics of parasite resistance 119-40
oxytetracycline for *Mycoplasma*-associated keratoconjunctivitis 83-8
pregnant, aqueous humour and cerebrospinal fluid levels of 3-OH butyrate at post mortem 459-61
worm control 111-13 (editorial)
xylazine epidural anaesthesia effect on blood gas and acid-base parameters in rams 579-86
see also ruminants
sodium bicarbonate loading in racehorses 473-5, 523-45
somatic cell count in bulk tank milk 17-25
sperm cryopreservation in rabbits 477-88
Staphylococcus spp. in bulk tank milk 17-25
stomach weights in abattoir pigs 659-70
sulphachloropyrazine pharmacology in roosters, testosterone effects on 331-6 (SC)
sulphadimidine pharmacology in roosters, testosterone effects on 331-6 (SC)
swine fever outbreak in Spain 203-14
systemic lupus erythematosus in dogs, heat shock proteins 271-9

testicular degeneration in goats, US imaging 101-10
testosterone effect on sulphadimidine and sulphachloropyrazine pharmacology in roosters 331-6 (SC)
tilmicosin efficacy in respiratory disease in housed beef calves 587-9 (SC)
Trichostrongylus colubriformis resistance in sheep 119-40
Trypanosoma equiperdum antibody detection 715-20 (SC)
tumour necrosis factor α response to endotoxin 489-522
tumour suppression gene p53
exon sequence 325
mutations in feline fibrosarcomas 707-14

US imaging of testicular degeneration in goats 101-10

vaccination
foot-and-mouth disease 379-89
salmonellosis 351-77
in salmonid aquacultures 45-69
vascular effects of nitric oxide during endotoxaemia 499-522
vibriosis vaccination in salmonid aquaculture 45-69
virulence plasmid genes, *Salmonella* 351-77
vitamin B injection causing muscle damage in dogs 189-96

water deprivation
effect on response to sodium bicarbonate administration to racehorses 523-45
response of poultry 197-202
worm control in sheep 111-13 (editorial)

xylazine epidural anaesthesia effect on blood gas and acid-base parameters in rams 579-86

yersiniosis vaccination in salmonid aquaculture 45-69
